

# Hopkinsville Kentuckian.

VOL XIX.

HOPKINSVILLE, KENTUCKY, TUESDAY, JANUARY 19, 1897.

NO. 6.

## Inventory Sale

An invoice always brings to light odds and ends and sometimes full lines of seasonable good that a merchant prefers to sell at cost and even at less than cost rather than carry them over.

We have just finished our January invoice and it has brought out an unusually large lot of odds and ends that we are very anxious to close out and if prices will do it will be done.

Haven't room to itemize, but you can count on finding tremendous bargains in every department in our store.

J. H. ANDERSON & CO.,

Boots, Shoes, Clothing and Men's Furnishings.

## CREAM OF NEWS.

IF IT IS NEW AND TRUE THIS COLUMN HAS IT.

Fire to Cover Crime—New Bank President  
—Carl Moore Captures Premiums—  
Burned to Death—Shoulder  
Dislocated.

### Coal Chute Damaged By Fire.

The L. & N. coal chute at Guthrie was partially destroyed by fire last Thursday. Loss about \$300. Origin of the fire is not known.

### Fire Near Trenton.

The dwelling house of Mr. C. F. Stock, a farmer living near Trenton, together with its entire contents, was destroyed by fire Friday night. The loss is about \$2,000; insured for \$1,000. The supposition is that the building caught from a defective flue.

### Committee Meeting To-Morrow.

The Democratic committee of the Third judicial district will meet at Eddyville to-morrow to fix a time and method for settling the district nomination. Mr. H. W. Harding, of Cal- loway, is chairman and Mr. Isaac Garrett, of Christian, secretary of the committee.

### Shoulder Dislocated.

Mr. Herbert Amos, of Cobb, had the misfortune to get one of his shoulders dislocated a few days ago. His horse fell with him, causing the accident. The dislocated member was at once set by a surgeon and Mr. Amos is now getting along quite nicely and is experiencing less trouble than was at first anticipated.

### Date of Reunion Changed.

The date of the reunion of Confederate veterans at Nashville, has been changed from May 6, and 7 to June 22, 23 and 24, Tuesday, Wednesday and Thursday, respectively. June was thought to be a more favorable season and the Convention was to be more advanced and much more enjoyable for those who desire to visit the great show, than in May.

### Death of an Old Lady.

Crofton, Jan. 16.—Mrs. Kate Armstrong, an aged and highly respected lady, is dead. She had only been sick a week. She was 88 years old. Mrs. Armstrong was the widow of the late Lawrence Armstrong and belonged to a prominent family. Three brothers, aged 84, 86 and 94 years, respectively survive her.

### Fusion Deaf Closed.

The Democratic and Populist committee of the fourth judicial district, in joint session at Princeton, decided upon a fusion and issued a call for a district convention at Princeton April 8 to select a candidate for judge and attorney.

A senatorial convention was also called for April 7, at Marion. Delegates to these conventions are to be appointed April 5th, the primaries to be held April 3. "All supporters of Bryan" are admitted.

### Cashed Another Man's Check.

Chief Fritz arrested Jo. L. Martin, an Earlington negro Saturday afternoon, near the L & N. depot on a charge from Hopkinsville, changing his face. It is claimed that Martin used a \$32.05 check sent here by a St. Louis house to a traveling man named J. L. Martin. It seems that the negro, soon as he came in possession of the check, went back to Earlington, was identified and J. M. McCarthy & Co. then got the money. This occurs some weeks ago.

Marshal Barnett, of Earlington, has been at work on the case ever since and came here Saturday morning in search of his man. The local police were notified and he was soon taken in as above stated. The marshal immediately left for Earlington with his prisoner.

### Death of a Negro.

Deputy United States Marshal of this place, was instantly killed to-day by Jacob Neace while in the discharge of his duty, 18 miles from here. The Sheriff and a posse left to-night for the scene of the murder to arrest Neace.

### Death of a Negro.

Jackson, Jan. 14.—W. A. Byrd, Deputy United States Marshal of this place, was instantly killed to-day by Jacob Neace while in the discharge of his duty, 18 miles from here.

The Sheriff and a posse left to-night for the scene of the murder to arrest Neace.

### A New Bank President.

The Board of Directors of the Bank of Hopkinsville at a meeting held Friday night elected Mr. Henry C. Gant to the presidency of the bank. Mr. J. Edgar McPherson, who has been temporarily filling both offices, resumed his old duties as cashier.

Mr. Gant is one of Hopkinsville's oldest residents. He is a successful businessman and is standing as a man and citizen and his popularity as a gentleman will make his selection a satisfactory one to the patrons of the bank.

Mr. H. L. McPherson, bookkeeper in the bank, was promoted to the position of assistant cashier, which position his friends predict will be but a stepping stone to the higher honors that await him.

Five children were drowned while skating in St. Louis.

Fire at Henderson gutted the store of S. & E. Oberdorfer, causing a loss of \$20,000, fully insured.

## DEAD IN HAWAII.

MINISTER WILLIS EXPIRES ON A FAR AWAY ISLAND.

A Kentucky Diplomat's Long Illness Terminates in Death—Sketch of His Career.

San Francisco, January 15.—The steamer Monowi, which arrived at midnight, brought advices from Honolulu to the effect that United States Minister Albert S. Willis died at 9:30 a.m. on January 6, after an illness covering several months, resulting from the attack of pneumonia he suffered while on his vacation to the United States.

In April last the Minister and family left Hawaii for a visit to their old home at Louisville. While in San Francisco, on the return trip, the Minister contracted a severe cold, which settled upon his lungs. This was the immediate cause of his death. At noon on October 31, while leaving church, he became away and threw Mr. Willis to the ground. He was taken to a physician's office and soon recovered sufficiently to return to his home at Waikiki. He never left it again.

Hon. Albert S. Willis was a Kentuckian by birth, having been born in Shively January 22, 1838. His father was Dr. Shelly Willis, a near relative of Isaac Shelby, the first Governor of Kentucky. His mother before her marriage was Miss Harriet Button, of Oldham county.

When a boy his family moved to Louisville, and he was educated in the public schools, being graduated from the High School in the class of 1859.

He was elected county attorney in 1870 and '74, and Congressman in 1876, and was re-elected four times. He was defeated in the primary election of 1886 by A. G. Garth. He was appointed to his late position three years ago.

### He is Mrs. Wilkes?

Mrs. Helen Wilkes, who arrived in the city before last (Friday) from Henderson, Ky., and had previously been deserted by her husband, yesterday afternoon on the Hopkinsville accommodation for Hopkinsville. It will be remembered that she was in a delicate condition but her husband suddenly and without previous warning left, the train near Hopkinsville. She was given transportation to the place where her husband is supposed to be and will endeavor to find him.—Nashville Sun.

Took Poison by Mistake.

George Austin, living near Auburn, Ky., while feeling unwell, arose and took medicine, as he thought, but took insect poison, and a large dose. Doctors state that the powder eating the lining of his stomach and that he will not recover.

### Colored Woman Burned to Death.

Viney O'Neal, an aged colored woman, was burned to death last Thursday evening at her home near Kenney. The woman was standing in front of the grate when a spark ignited her clothes and before help came she was fatally burned, dying in a few minutes.

### Deputy Marshal Killed.

Jackson, Jan. 14.—W. A. Byrd, Deputy United States Marshal of this place, was instantly killed to-day by Jacob Neace while in the discharge of his duty, 18 miles from here.

The Sheriff and a posse left to-night for the scene of the murder to arrest Neace.

### In Danger of Being Lynched.

Jackson, Ky., January 14.—W. H. Garnett, colored, has been placed in jail at Hyden, Leslie county, charged with the murder of Miss Polly Feltner, who mysteriously disappeared January 2. There are fears that the prisoner will be lynched.

### Aged Over 120.

Charleston, W. Va., January 14.—Aunt Cynthia Carroll, who was beyond all doubt, the oldest person in West Virginia, died to-day at Hamlin. She is known to have been at least 120 years old. She retained her faculties fairly well up to within a short time before her death.

### Punished For Playing Poker.

The police raided a room Saturday night in the Bradshaw building at 210 South Main street, and captured four young men who were playing poker. There were six in the room, but two got away by going out of a window. The four captured were arraigned in the police court yesterday and each fined \$50 and costs.

Five children were drowned while skating in St. Louis.

Ex-Chief Justice I. N. Quigley, of Paducah, was in the city yesterday on business.

## AFTER DR. LETCHER.

INSPECTOR LESTER TO RECOMMEND HIS REMOVAL.

Surprising News Sets Out From Frankfort—A Change Predicted in the Western Asylum Management.

Frankfort, Jan. 17.—Mr. C. W. Lester, the State Inspector and Examiner, is about to create a sensation in Kentucky Republican politics. Mr. Lester is going to recommend the displacement of Superintendent Ben Letcher, of the Hopkinsville Asylum, and of Warden Happy, of the Eddyville prison.

He is also going to recommend the appointment and election in their stead of a new Superintendent and a new Warden. In doing this he is not going to reflect on the personal or official integrity of either of these gentlemen, but will ascribe the tangible and unsatisfactory condition of things to the two institutions to lack of competency, inactivity and lack of executive ability on the part of the Superintendent and the Warden.

There is no doubt about the correctness of this forecast of the reports to be made. Gov. Bradley appointed Dr. Lester to the position of Inspector of the asylum mentioned, and did so upon the recommendation of many good people, who had confidence in him as a physician and as a man. The Governor's faith in Dr. Letcher in this regard is doubtless unshaken, as is that of numerous friends who have been instrumental in placing the Superintendent in the recent dissension at the Asylum. But it is no more than fair to presume that the Governor, who directs the movements of the inspector, must know of the recommendations coming and must be prepared to act upon them.

The Governor's own individual opinion is enough in the same boat to preclude the accusation that he has set the inspector on Warden Happy, who was elected by the whole prison board, and against whom the Governor is understood to have voted. There is probably little doubt about the Governor's full do with the recommendation concerning Dr. Letcher's removal; but there is doubt about what the whole board will do with the recommendation about Warden Happy, who has many warm political friends, some of whom are in the Board of Commissioners. While nothing can be done till the inspector's reports are filed, and the powers will doubtless say this to the friends who come to intercede for those whose official heads are in danger.

The above report from Frankfort in yesterday's daily papers, caused a good deal of surprise here. It was not believed that anything was developed in the recent investigation that endangered Dr. Letcher's position. It seems that his enemies are still at work to have secured the car of the Governor.

Dr. Letcher was seen yesterday by a Kentuckian reporter and declined to make any statement, alleging as a reason that the newspaper reports were not based upon anything official. His testimony is in fact still in this city being considered. Dr. Letcher's attorney, it is to be noted, will accompany the report. Inspector Lester is preparing. It may be true that he will advise Dr. Letcher's removal, but the Doctor will put up a strong fight to hold his place.

The case is now coming before the Board of Commissioners and citizens as public sentiment seems to be with him in the trouble.

Dr. Letcher was appointed less than a year ago. The assistant physicians are Dr. Miller, Dr. Katherine Hause, Dr. D. C. Stanley, Dr. Miller, Dr. Hauser and the matron, Miss Neil, are the officials who are making it warm for the Superintendent. He is sustained by most of the members of the Board and by the Steward, Judge A. H. Anderson, and other officials.

### Charged with Numerous Offenses.

Mr. J. M. Crunk, of the Johnson's Mill neighborhood, had Brown G. W. Putnam, Elliott Knight and Mack Stiersman arrested on a warrant charging trespass and carrying concealed weapons. All but Stiersman were also charged with breach of the peace. Crunk claims that his meat house was torn down and that he was shot at by some of the defendants. He also charges that some of the gang tore down his fences, and committed other depredations.

Brown and Putnam were tried here Saturday and fined \$30 and costs, each, for breach of the peace, and \$10 and trimmings was assessed against Knight. Defendants repudiated their debts. The trespass and e. d., we cases were all continued until Jan. 26.

Teller will be re-elected United States Senator by the Colorado Legislature January 19.

# OUR Annual Clearance Sale

FOR 15 DAYS

# BEGINS MONDAY JAN. 18.

## PREPARE TO BE PLEASED.

It's a blessing to be within reach of such an opportunity. We make prices which you cannot resist.

In absolute bargains it eclipses them all. Our Annual Inventory brought out the fact that in many lines we are too heavy stocked at this season of the year. We have determined to reduce them in order to make room for our Spring Stock. We have not permitted greed for profit to deter us in the least. We have made up our minds to let them go, Profit or no profit, Cost or no Cost.

## Ready with Our Bargains.

Above us stands no competing stock, below us lie no competing prices; we will commence with bargains, we will continue with bargains.

## FIFTEEN DAYS of Bargains Unequaled in History!

### Dress Goods!

### Dress Goods!

Our invoice has devolved many remnants which we have placed on our bargain counter. We want to sell them in making the prices, cost cuts no figure, they MUST GO.

All of our Novelty Wool Dress Patterns at 1-3 off.

Please and think what this means:  
\$12.00 Suit for \$8.00  
10.00 " " 6.66  
7.50 " " 5.06  
5.00 " " 3.33  
45 inch all wool silk finish Serge - 30c  
50 " " 35c  
Worth actually 85c.

### Novelty Dress Goods.

Our 50c Line for 37c  
" 75c " 40c  
" 81c " 75c

We have by far the most choice line to be found in the city. Our regular prices are low, but those we quote in this sale are extremely rare bargains, because many of them were bought under a force sale from jobbers and manufacturers.

### Blankets Blankets.

Rather than carry them over we put the knife deep and offer them at absolute unheard of prices.

12-4 3.95 worth 6.00  
11-4 3.30 " 5.00  
11-4 2.55 linen wraps " 3.75

## THIS AND THAT.

Japan has not only ceased importing beer, but is now exporting it to China.

The question of a century celebration of the death of Edmund Burke is being mooted in Ireland.

Oriente, Mexico, is to have a \$3,000,000 cotton factory. The same has been subscribed in Europe.

Sixty-one thousand two hundred and twenty-six immigrants landed in the Argentine republic during the year 1895.

Victoria, Australia, has turned out 536,512 ounces of gold during the last nine months, an increase of 21,000 ounces over last year.

At the recent art exhibition in Berlin Italy was represented by 105 artists, who won five gold medals and sold twenty-eight pictures for \$17,000.

Corks for bottles were first manufactured in Spain and Italy some time during the fourteenth century. Corkscrews were contemporaneous with corks.

The days of the barmaid in South Australia are numbered. By a recent act of parliament she will automatically cease to exist on June 30, 1899.

German Southwest Africa, a tract of over 800,000 square kilometers, had last year only 780 adult Germans in the whole territory, and of these nearly 600 were in uniform.

One of the humors of a London dinner party at which Sir Henry Irving, Mr. Wyndham and other actors of note were present was Sir Edmund Lockwood's remark that "actors are the most popular persons in the realm, with the single exception of professional jockeys."

## A FRENCH BATTALION.

The Officer's Presence of Mind Saved Three Hundred Lives.

In consequence of the recent murder of a French officer in southern Algeria, the military authorities decided to reinforce the garrison in that part of the colony, and for this purpose a company of 300 men of the Second African battalion left Ghoria for Golea. While the column was marching through the mountainous district between Metlib and Bordjebéb, in a deep ravine, a tremendous fall of rain came on.

The downpour was so heavy that the troops were unable to climb the slippery rocks, and were obliged to remain in the ravine. The rain continued to fall in sheets, and the men were soon up to their chests in water. To add to their difficulties a strong current was formed by water rushing from the upper to the lower end of the ravine. Many would have swept away but for the presence of mind of the officer in command, who ordered his men to hold on to each other and form in a square, so as to present the utmost possible resistance to the current. The order was carried out with some difficulty. After the water had subsided sufficiently to enable the march to be resumed.—Westminster Gazette.

## CARRIAGE DOGS.

Keep Pace with the Horses with Machine-like Regularity.

A London coachman, who for years had charge of a large and beautiful stable of superb carriage-horses, told the writer that a carriage-dog owned by his master invariably ran beneath the pole-chains the moment the carriage started, and would make the circuit of the park several times without moving more than a few inches from his place, the three animals—two horses and the dog—moving like a machine. Curiously enough, the dog chose his particular horse to live and sleep with in the stable; when traveling and in inn stables it mounted guard over this horse's box, and would allow no strange hoster or groom to approach it.

Greyhounds also learn to run with traps. It was the custom for sporting farmers in east Anglia to drive to market with their hounds, either running with their hounds just beneath the tail-board, or one on either side of the cart. Their pace was a trot, stop, trot with stop with the horse. The use of carts and carriages for locomotion is much more readily learned by dogs than the art of keeping safe among traffic. Sporting dogs soon learn to like being driven to the shooting-ground.

When accustomed to this they will jump up the moment the tail-board is lowered, and curl up under the seat, and show great discontent if not offered a place. But nearly all are singularly dull at devising any means for safe descent when the drive is over. They usually make a violent spring to the ground, often when the cart has scarcely stopped, and fractured fore legs are a frequent result.

Trains present far less difficulty to them, which occur, however, afraid of the rush and noise of the crowd. They soon learn to delight in traveling by rail—if allowed to accompany their masters. They rush in the moment the door is opened, and some dogs, notably those who are accustomed to comfortable drawing-rooms and soft carpets, will always select a first-class carriage in preference to a wooden-seated "third." But though they have learned to reckon with the speed of a carriage and become so fond of railway traveling that "railway dogs" who travel by choice and alone are quite common—there is a "Ride to Portsmouth" dog too, which travels by boat, and begs pennies for buns—no dog, and we believe no domesticated animal, has ever learned to judge the speed of a train. When once on the line they seem, this country, quite unconscious of the distance. In the train, moving at the rate of from five to twelve miles an hour, they get out of the way; but a pack of hounds on a railway line, even if they are not in full cry, are often overtaken to pieces by the first fast train which overtakes them. The first thing which the driver does when he sees them is to shut off steam. This makes the engine noiseless, but the whole train rushes on, plainly visible, but with absolutely no terror for hounds, who seem to look on the swift, silent thing as perfectly harmless. If it were a corn-wagon or a puffing traction-engine they would get out of the way.

When the short line of railway was made across the neck of the Dobrujicha, in Turkey, from Rustemibé to the Danube, the Turks were almost as stupid. They were unable to realize that the train would not stop, and would drive their sheep along the line, and one man endeavored to stop a runaway truck by putting his foot on the rail.—London Spectator.

## Two Good Stories.

Sir John Lubbock had a couple of very amusing stories to tell recently in distributing the prizes at a school in the city road. He said he was only cognizant of a single instance where anyone derived an advantage from being badly grounded in arithmetic. That was the case of the old lady who secured a ticket numbered 24 in a lottery, because she had three dreams that seven would be a lucky number. She calculated that three sevens made 21; curiously this ticket won a big prize. The other story was one of Sir John Lubbock's own nice descriptions of "Oxygen and Cambridge!"—Westminster Gazette.

## Steel for Shipbuilding.

Steel has been used for shipbuilding only about 20 years, yet it is estimated that 96 per cent. of the vessels built at the present day are of steel.

**TENSORIAL ARTISTS.**

WEST SEVENTH STREET, ELB BUILDING.

Clean towels and everything first-

Give us a call.

**Biliousness**

Is caused by torpid liver, which prevents digestion and permits food to ferment and putrefy in the stomach. Then follow dizziness, headache,

insomia, nervousness, and

if not relieved, bilious fever or blood poison. Hood's Pills cure the symptoms.

Take the pills, cure headache, dizziness, constipation etc. 25 cents. Sold by all druggists.

The only pills to take with Hood's Sarsaparilla.

—His Limitation.—"Did you ever find a will you couldn't break?" "Yes, sir; my wife's," bravely admitted the famous lawyer.—Detroit Free Press.

—As you go forward in life never expect too much, never hope for little.—Dr. Jowett.

## BREVITIES OF FUN.

"Git a mornin' pass-a-per!" said the newsboy. "All 'bout the partition Texas not sinkin' yesterday?"—Chicago Tribune.

"Have you steamed heat?" asked the prospective tenant. And the janitor, who had been through a "rent," could only answer: "We have steam pipes."—Indianapolis Journal.

"We girls are getting up an eccentric society of our own," said Lulu. "Indeed; what's that object?" said George. "I don't know yet; but we'll tell you all about it after I'm initiated."—Tit-Bits.

"Well," said the young reporter, "you should be very careful about firing me." "Why so?" quoth the city editor. "Because I have so much penetration." Then they gave him charge of the humorous page in the Sunday supplement.—Cleveland Plain Dealer.

The Doctor—"Mrs. Brown has sent for me to go and see her boy, and I must go at once." His Wife—"What is the matter with the boy?" The Doctor—"I don't know; but Mrs. Brown has a book on 'What to Do Before the Doctor Comes,' and I must hurry up before she does it."—Household Words.

—When they told her that the young man whose suit she had rejected the previous evening had hanged himself to the gate post directly he left her, the beautiful girl shrieked over her shoulders. "It isn't my fault," she said coldly. "I specifically told him he mustn't think of hanging around here any more."—Detroit Tribune.

"Did you act upon my suggestion?" demanded the doctor. "The doctor hastened. "Suppose! Take me the worst." "Well, I suppose you might call it acting," faltered he who bore the tidings. Stepping to the front of the stage, they presented their athletic specialty, to which the tragedy of the evening was merely preliminary.—Detroit Tribune.

A Matter for the Future.—"Yes," remarked the proud father whose tastes are musical, "he's the finest baby the neighborhood has ever seen. I don't rely on my prejudiced opinion in making the statement. My wife says the same thing." "Are you going to make a musician of him?" "Oh, it's altogether too early to decide that. His hair hasn't begun to grow yet."—Washington Star.

## THE PROBLEM NOT NEW.

Horseless Carriages in England Sixty-Five Years Ago.

It is interesting to remember that nearly 65 years ago horseless carriages showed every sign of being the common method of traveling in London and the surrounding neighborhood, for although at that time restrictions had been put upon steam carriages in the country, these vehicles were quite a familiar sight in the metropolis. The inventor was Mr. Walter Hancock, a Stratfordian, who in 1831 brought out a omnibus of his own design, which was both elegant and in accordance with the comfort of travois. Companies were very soon formed to work the "new idea," the object of one being to run from Paddington to Brighton, and Hancock contracted to supply the necessary rolling stock.

In a few years coaches were regularly running from the city to most of the important suburbs, but owing to bad management the concerns did not last very long. In 1835 the journey from London to Marlborough (75 miles) was performed at the average speed of seven and one-half miles an hour, and the journey to Birmingham was accomplished in a much faster average time (about ten miles). This was not the highest speed that could be attained, however, for the records state that a vehicle carrying a number of passengers traveled a mile along one of London's principal thoroughfares at the rate of 21 miles an hour. It is well, perhaps, that this speed was only maintained for one mile, for even in 1836 it was a dangerous rate of traveling. No fewer than 12,700 passengers were carried over 4,000 miles by steam in the last few months of 1836.—Westminster Gazette.

## Professors' Salaries.

When the University of Chicago was started, it was thought good policy to secure eight or ten of the best men in the country by offering them the unprecedented sum of \$7,000. But aside from the lawmen, this favored for a special reason at the beginning, other salaries have been fixed upon about the scale that obtains at Yale, Harvard and half a dozen other first-class institutions. In other words, \$5,000 is the maximum that any instructor may hope to reach, while the rank and file of the men are paid from \$1,500 to \$2,500.

OFFICE, 212 SOUTH MAIN STREET.

—TUESDAY, JAN. 19, 1897.—

Mark Hanna is a candidate for the Senate from Ohio, to succeed John Sherman, who is to be Secretary of State.

India has no Republican administration, but she has the next worse thing—a plague that is rapidly depopulating the country.

Representative Jas. A. Violet, the renegade Democrat of Frankfort, has wound up as a candidate for county judge of Franklin county on the Republican ticket.

They actually hanged a man in Florida the other day for killing a Pullman car porter. At this rate it will soon be considered a crime to kill an exchange friend.

An Ohio magistrate in a test case at Cincinnati has decided that a \$50 bet that McKinley would carry Kentucky should be drawn, it being a gambling transaction and unlawful.

Joel T. Headley, author of "Washington and His Generals," "Napoleon and His Marshals" and other historical books, has just died at Newberg, New York, aged 83 years.

The Louisville Times, a high authority on G. O. P. matters, says, "The negroes are raising Cain because some of them have invited to Sam Roberts big political feed in Louisville. A few were present, but only waiters."

Before writing its "better times" editorial Sunday, the Courier Journal should have read its own telegraphic reports from Owensboro, where C. E. Mitchell, a leading merchant, failed Saturday for \$40,000.

Secretary Carlisle has abandoned the idea of putting the pictures of Eli Whitney, inventor of the cotton gin, and Cyrus H. McCormick, inventor of the reaper, on the new \$10 certificates. Protests came thick and fast from rival inventors all over the country.

A newspaper published at Jerome, Arizona, advertises for an invoice of marriageable women to supply a pressing demand for wives. There are 500 men, young and old, in the town who want wives, and only three or four marriageable young ladies. The town has a population of 1800, in spite of the drawbacks it has to contend against.

The Democrats of Marshall county have called a primary election for April 10 and shut out of it all silver men who will not declare that it is their "bona fide intention to affiliate herself with the Democratic party."

The committee has taken a contrary course from that recommended by the State Executive committee. The silver forces must be united and not divided. The Marshall Democrats should get together again and try it over. They have made a mistake.

In 1892 the editors of the Crittenden Press and the Kentuckian were both delegates to the Chicago convention and both voted for Grover Cleveland. In his last issue the editor of the Press rises to remark:

"Only forty-nine more days of Grover Cleveland. His administration has been the severest blow the Democratic party has had in a quarter of a century. If it survives, it will be a potent influence for another century."

By the way, Bro. Walker, suppose we meet at some half-way point and have a mutual pants-kicking.

Mr. Watterson grows spiteful as he sees himself discredited and distrusted. In a two-column defense of himself he compares himself to Moses in the wilderness and avows that the average free silver man is "no gentleman." Starting with a hot box, he gets worse as he runs and freely indulges in such words as "visionary extremists," "fools," "dogs," "anarchy," "reprobation," etc. etc. He concludes with a threat and some silly vainglorious that only amateur. For the life of us we can't feel kindly towards this once honored leader. Rather let his old associates pity him in his fall.

In its issue of Sunday the Courier-Journal commented editorially upon a sensational advance in stocks, suggesting better times, which it professed to have discovered on Friday. That this "prosperity" does not exist is a fact shown by the following extracts from the commercial reports of the two leading agencies on Saturday:

From Bradstreet's report: "Except a few Southern cities, as reported last week, there is little change in trade features and few indications of improvement in the near future. Mercantile collections continue slow. There has been no revival in textile circles. Cotton goods continue depressed at first hands, but little prospect for improvement until after production has been re-started."

Prices this week show advances for leather, pork, lard, petroleum and cotton, while decreases are reported in pieces of hardware, corn, coffee, pig iron and steel billets. Heavy stocks continue to depress cotton goods. Iron and steel have not met the increased demand expected, while sugar and coffee prices have been affected by competition from foreign countries. The number of business failures in the United States this week, compared with 488 last week, 412 in the second week in January last year, 387 in the week of 1896, and as compared with 404 in the corresponding week of 1894."

These figures show 966 failures in two weeks, the number for the week being higher than the corresponding week of any year given. It is proper to add that many of the failures were banks and other large concerns. But this is only a part of the record.

Dunn's review evidently tries hard to put a favorable aspect on existing conditions, but a decline is noted in pig iron and woolen goods and other articles and the following record:

"Textile manufacturers are not encouraged by the demand for goods, though more print cloths were sold than for many weeks. Lower prices are expected in goods, and slow buying is natural since cotton has fallen 17.8 per cent from Sept. 1, previous, 3.5 per cent, bleached goods 3.3 to 5.3 and brown goods 2.3 and 4 per cent."

Cotton and tobacco are the two staple crops now on hand and these are low down and still declining. The facts in the case are not altered by the stock gambling in Wall street. Prosperity may come—and we hope it may—but it is not yet in sight.

J. Pierpont Morgan, who was mixed up in one of the Carlisle bond scandals two years ago and made \$300,000 for his syndicate by buying privately from the Secretary \$62,000,000 of bonds at 104 that were worth on the market 119, has evidently been overtaken by remorse. He has notified the New York Lying-in Hospital that he is prepared to make it a donation of \$1,000,000 to erect new buildings.

If Dr. Clardy can secure the abolition of the regia system of purchasing and controlling the price of tobacco, the growers of this district will keep him in congress as long as they want to stay there. But the doctor is hunting a mare's nest in his effort to break up the government monopoly of other countries.—Owensboro Press.

Mr. J. L. Teft, the L. & N. agent at Nortonville, who made the sensational exposure of the Republican bribery in Hopkins county during the late campaign, is a candidate for the Democratic nomination for county court clerk. He has three opponents, one of them "Silver John" Brusher, of Dawson.

Mr. Jno. T. Evans, of Trenton, who has handled more than 1,000 head of fat cattle since Christmas, was in the county last week and shipped three carloads of fine steers bought from Mr. D. Jones and others in the southern part of the county. Mr. Evans is making quite a success as a cattle dealer.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been unable to conquer—catarrh, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, and gently debriding the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have as much faith in its curative powers, that they offer One Hundred Dollars for any case that fails to cure. See for list of testimonials.

## PLAQUE AND FAMINE.

### INDIA'S DOUBLE CURSE AROUSING THE WORLD.

Thousands Dying Daily From Disease and Starvation—Appeals To The World For Aid.

London, Jan. 16.—The eyes of the European world are turned this week toward India, each day's intelligence from that stricken land making it more apparent that the greatest tragedy in modern history is being enacted there. The scenes of famine and plague. The heart of Europe has been touched at last and the universal sympathy is perhaps more keen because it is now tinged with apprehension. It would not be surprising if within a month the entire flagrant picture should pass through. Civilization. The great powers show alarm and the news comes that Italy has summoned an international conference to meet forthwith at Rome to consider measures for dealing with the danger.

It is said that the response of other governments will be prompt and the all the resources of modern science will be speedily arrayed against this hideous foe. Reli-

able information about the real extent of the plague in Bombay and vicinity is not yet available, but the victims daily exceed hundreds of thousands. The ravages of the famine in the interior of India are still far more deadly than the more horrible plague at Bombay. The victims of the plague are probably hundreds of thousands, but the victims of hunger succumb by thousands daily.

It is sufficient to say that the gaunt,

starving millions of India are perishing at a more rapid rate than any

ever suffered before by the most

deadly engines of destruction devised

apparently in full operation. The

public conscience and sympathy in

this country have both been fully aroused. The response to the appeal is liberal, but utterly impossible.

The proportion of given to the suf-

ficient is so small that one in a thou-

sand. It will require the genera-

tion of the whole world to oppose a real check to the ravages of hunger in India.

The Pacific Railroad Funding Bill was defeated in the House by a vote of 192 to 176, the adverse majority of 36. Friends were numerous, but such an overwhelming defeat, and when the final test of strength came they were found to be without organization. The vote disposed of a proposition that has been before Congress and the public for a dozen years.

James A. Mount was inaugurated Governor of Indiana last week with little ceremony.

The dead body of an infant was found in a yard at Owensboro. A woman suspected of infanticide has been arrested.

Wm. L. Wallace, Louisville, guessed the correct electoral vote—McKinley 1,211, Bryan 176—and will go to the inauguration at the expense of the Louisville Times. Smaller prizes were won by Jno. E. Wible, New Albany, and Mrs. Geo. H. Waterman, Louisville.

## SEE THE POINT.

## THE BALDHEADED CLUB.

OPEN SESSION HELD AT THE OPERA HOUSE.

President Cooper inaugurated and De-  
cusses Bald Heads—A Large and En-  
thusiastic Crowd Present.

At last the  
veil of secrecy  
that has for  
five years  
been thrown  
around the  
Baldheaded Club has been raised and  
the public given an opportunity to see  
the club in session.

The new officers were publicly installed at the Opera House Saturday night and the event was one of the most exciting episodes in the history of Hopkinsville. Nothing has created so much excitement since the police put on their new uniforms.

Manager Galbreath, who is cultivating a nice little bald spot on the back of his head, and Councilman Holland, who expects to be bald some day when he gets married—very kindly donated the use of the Opera House, and the crowd that turned out to listen to the speeches was even larger than it would have been at a dollar a head.

All of the members were there and a number of visitors.

Letters of regret were received from absent members, among them Col. E. Polk Johnson, now in London, Eng land; Col. Wm. Cowan of Joliet, Ill., and Col. A. D. Rodgers of Henderson, Ky., all expressing regret that they could not be on hand to hear Col. Cooper's speech.

Many ladies graced the occasion with their presence, and it took the usherettes some time to get the vast audience comfortably seated.

The members of the club occupied seats on the stage, and President Pyle and President-elect Cooper were seated in the center of a human crest, while Vice-President Orton and Col. Bill Cooper sat on either side of them.

Before the exercises were opened, Col. Bill Cooper superintended the stretching of a wire netting in front of the stage. He explained in an undertone to Manager Galbreath that the orator of the evening was the only person he had, and he didn't want him to get his "baldness" and things when he was orating.

President Pyle opened the exercises by welcoming the visitors in a cordial manner. He said the meetings of the club had heretofore been so secretly held that many persons refused to credit the worth of the organization to which some had even doubted the existence of the noble organization of which every member was proud to be enrolled as a brother. To settle once for all this question, it had been determined to hold this open session and he concluded by presenting the President-elect to deliver his inaugural address.

Col. Cooper is one of the original baldheaded men of the city. In fact he is so bald that even the butter he uses in his hotel is free from the vile slanders sometimes indulged in by humorous paragraphers. It would be impossible to find a hair in his hair, but the hair of the hair. The new President was slightly embarrassed when he confronted the sea of faces, but he soon regained his composure and spoke as follows:

We call them little men and little women, but they are neither. They have ideas and ways all their own. Fortunately they soon become fond of cod-liver oil, when it is given to them in the form of SCOTT'S EMULSION. This is the most valuable remedy in existence for all the wasting diseases of early life. The poorly nourished, scrofulous child; the thin, weak, fretting child; the young child who does not grow; all take Scott's Emulsion without force or bribe. It seems as if they knew that this meant nourishment and growth for bones, muscles and nerves.

Book telling more about it, free.

It won't pay to try a substitute for Scott's Emulsion with the children. They will relish the real thing.

For sale at \$0c, and \$1.00, by all druggists.

SCOTT & BOWNE, New York.

## AROUND LAND ABOUT.

J. O. Hixson & Co., clothing merchants, failed at Owenton.

Four men were killed by an explosion in a mine in Colorado.

The Seattle Savings Bank, of Seattle, Wash., closed its doors.

Eli Davis, a Crittenden County boy, killed himself while hunting.

District Attorney Wm. M. Smith is very ill at his home in Mayfield.

W. M. Samuels, owner of the Mississippi Valley Nursery, at Clifton, is dead.

Daniel Walker a prominent farmer of Garrard county, made an assignment.

A Nashville man killed himself because his daughter, who had been supporting him, decided to marry.

A bill reducing the fare on railroads to two cents per mile was introduced in the Indiana Legislature.

Jeanie Browning jumped into the Kentucky river near Maysville with her child, which was born out of wedlock, and both were drowned.

A negro who knocked down and robbed a white man at Whitecastle, La., was taken from jail and hanged by a mob.

William Hall, aged fifty years and dead, was killed by a train while walking on a railroad track at Faster, Ky.

C. Rudd Smith, formerly of Louisville, was found dead in his room in New York hotel, with the gas turned on.

James J. Stanling, cloak-room keeper of the last House of Representatives, died at his home in Clay county.

Capt. Thomas G. Poore, the well known ex-Deputy Clerk of the Kentucky Court of Appeals, is seriously ill at Frankfort.

The Louisville firm of Bray & Landrum was dissolved Saturday by Frank Bray's purchase of Jno. W. Landrum's interest for \$100,000.

Joe Black, aged 77, and Lilia Stanhope, aged 69, near Middlesborough, were remarried Jan. 15, having been divorced 40 years.

An account of the failure of the House to elect a Speaker, the election of a Senator in Oregon was delayed a week.

Edward M. Clark, who six months ago was reported to have perished at the head of an expedition in Mojave desert, Cal., has returned to Glen Ellyn, Ill., well and hearty.

The Forest land case, involving 50,000 acres in Bell County, has been decided in favor of the present owners and occupants.

Republicans of Cloverport, Ky., have decided to have a primary for post-office candidates, and the negroes, who are in the majority, will support a black man.

L. W. Cruee has succeeded P. S. Maxwell as chairman of the Democratic Committee of Crittenden County. A fusion with the Populists is probable.

Robert A. Hendrie, agent of the Illinois Central railroad at Central City, Ky., was run over and killed by a yard engine at that place Friday evening.

The Merchants Bank, Ocala, the Orange City Bank, and the Brooksville State Bank, all in Florida, failed Tuesday, also the Charlotte N. C. Loan and Savings Bank.

A petition has been circulated in Henderson for the pardon of Dr. Walter Davis, under a life sentence for poisoning his father-in-law four years ago.

There are thirty two candidates for the Republican nominations for the county officers of Bell County; thirty in Harlan, sixty-four in Leslie, and forty-nine in Perry County.

Rev. L. Martin of Fordville, has just announced that he officiated Dec. 1, 1896, at the clandestine marriage of R. C. Kelly and Miss Cora Garrison of Polkville, Ky. They went to Galatin, Tenn.

An ex-Confederate soldier of Hindman, W. W. Amburgy, has not made a step in twenty-five years, and has been outdoors but twice in this period—one time for the purpose of being immersed in the Baptist Church.

The live-bird shoot between J. R. Elliott, of Kansas City, who claims the record, and George Griswold, and Jacob D. Gray of Pine Grove, champion of Kentucky, was won by Elliott, the score resulting 98 to 96.

### SOME FIRST THINGS.

The first public library was established in New York in 1700. The first stationary steam engine was put up in Philadelphia in 1773. The first paper mill was put into operation in Roxborough, Pa., in 1860. The first straw paper manufactured in the country was made in 1828. The first gold piece was coined in New York in 1834. Philadelphia was the first city to issue a directory, so do first in 1783. The first post office in the country was that of New York, established by act of parliament in 1710. The first railroad was laid in 1826 from the granite quarries of Quincy, Mass., to the Neponset river, three miles. The first telephone wire was stretched from Boston to Somerville, three miles, in 1877.

It won't pay to try a substitute for Scott's Emulsion with the children. They will relish the real thing.

For sale at \$0c, and \$1.00, by all druggists.

SCOTT & BOWNE, New York.

## NOSES.

They Have Cut a Prominent Figure in the World's History.

There is probably some truth which underlies the popular expression about following the nose and the nose leading people into trouble, writes Nathan Haskell Dole in The Times and The Hour. All noses certainly have a great degree of separate individuality. The hair and the beard have a life of their own, and grow even after death. Noses wax and wane during life. The ambitious pig of the snuffing schoolboy may grow into the "noblest Roman of them all" by middle age. A series of such influences as Napoleon experienced at Borodino permanently widened and banalized the fine delicate Italian nostrils and nostril.

St. Helena, Naso mutantur et nos cum illis! The noses of women, too, have had a tremendous influence on the fate of the world. How the fancy revels in the ideas of the tilted, deep-carved, or titillating noses of Helen of Troy, Cleopatra, Aspasia, and the other fair women, and trial, of history! Of one hero it is said: "Elle avait un de ces petits nez, legerement retrousses qui cherchent les aventures et les exploits!"

Doctors have now and then arisen who have claimed the power to reshape and perfect the nose. From the clumsy device adopted by nurses of clapping a clothespin across the cartilage and pinching it into narrower limits, up to the more scientific procedure of the proctologists who, in surgery, to accomplish it, there are many gradations of skill, and yet how loath the possessors of the homeliest nose must be to permit experiments to be made upon it. A sort of divinity seems to hedge the dignity of the nose—the unconfessed acknowledgment of its personality. It has been recently discovered that a great many diseases are traceable to the nose, and a French savant has proposed that as the sense of smell is becoming extinct under the influence of civilization, and as the average nose is regarded with a larger proportion of disagreeable and offensive odors than of pleasant and beneficent ones, it would be well to extirpate the organ entirely. The man of the future promises to be hairless; if he were noseless also he would have little to distinguish him individually.

**BUSY TELEPHONE LINES.**

Electricians Overcome One Annoyance of the Present System.

When a bus man talks on the telephone his partner is always tried to learn that the man he wishes to communicate with is "busy talking." On some much-overused lines this may happen often as to become a positive nuisance, and the inconvenience of it is apt to be felt in many directions. The incidental loss of money or time may fall on the called subscriber as well as the caller, as after one or two vain endeavors to make the connection, a call is likely to be directed elsewhere. The simplest form of relief for an overtaxed line is a double-track connection with the central office—two separate lines and stations, one going for outward and the other for inward calls. Many people are now employing this method gratifying results. In cases where the double track does not meet the heavy requirements of the line a sub-exchange system has been provided. This enables any amount of business to be coped with, whatever its volume. It consists in placing telephone stations in different offices of an establishment as may be required. These are connected to a small switchboard, from which trunk lines run to the nearest central office. The most striking point afforded by these improvements, apart from their manifest advantage, is the way in which they suggest that we are but just entering the era of luxurious telephony, and before long the telephone will be used for social, business and even conversational purposes to an extent never dreamed of.—Cincinnati Enquirer.

Waiting to failing health I have decided to quit farming and desire to announce that I will offer to sell the premises at L. A. Watkinson, located near Bowdon, Ky., to the highest and best bidder. To be sold on the 26th day of December, 1897. The house has recently been repaired, papered and otherwise repainted and is in good condition. The property is to be sold at a bargain to any one wishing to purchase a desirable house. For further information apply at the Kentuckian office.

## MIXING WINES.

How the Bordeaux for Foreign Trade is Prepared.

An American who has been residing in France, and has devoted some time to studying the wines of that country, says: "The California claret is a good wine as the claret of France. The Bordeaux wines that are exported to England and America are not pure wines, but are mixed expressly for the foreign trade. The French have a great objection to this fact being known. It is said that a former United States consul to Bordeaux was shot down in the streets after having described the process of mixing in a consular report. The idea that a Frenchman will consume large quantities of wine is a mistake. He will go to an inn, call for a glass of wine, and sit down to a plate of oysters. If he is playing for a sum, he will drink only at that time. He takes but one glass. The French do not like a heavy wine, and the clarity of wine is quite light. Even this thin wine is nearly always mixed with water, half and half. They say water brings out the fruity flavor. To meet the English, American and other foreign demand, the French addlers at Bordeaux take the thin native wines and mix them with the much heavier wines of Spain and Portugal, and the result is the 'Bordeaux' of commerce. The method of mixing is wonderfully rapid and effective. Two bins of French wines are placed close to one of Spanish and one bin of Portuguese wine. Above them all is another bin, empty, and ready for the receipt of the mixed wine. The work of mixing is done by an electric motor, which is connected to four rubber suction pipes, one pipe going from each bin of wine into the empty bin above. The wine from the four bins is thus sucked up and discharged in equal quantities into the empty bin. The mixing is thorough. Malaga wine from Spain, port, possibly from Portugal, and then French claret all go into one compound, 'Vin de Bordeaux.' It is a good wine, but it is not a pure wine in the sense of being the product of one kind of grape.—Cincinnati Enquirer.

**EARLY STEAM CARRIAGES.**  
The First One Could Draw Ten Tons Five Miles an Hour.

The merit of inventing a self-steaming steam carriage is allowed to be due to Richard Trevethick, a clever but eccentric English engineer. He was the first who practically applied it to work on roads and railways. In 1802, he took out a patent in England for a steam carriage, and this novel machine he exhibited to large and astonished crowds in London. Immediately afterwards he adapted his steam carriage for the drawing of wagons on railways, a duty which it successfully performed, and the Merthyr Tydfil railway in 1804. This was the first railway locomotive, but it was far from perfect. It drew only ten tons of bar iron at the rate of five miles an hour. Through the inventive talents of George Stephenson, the Stockton & Darlington railway in 1821 was the first railway in which passengers traveled in carriages; yet, even with this measure of assured success, the locomotive was still an imperfect machine, for its extreme speed was but little faster than the walk of a horse. The means of imparting speed had yet to be perfected. In response to a premium offered by the projectors of the Liverpool & Manchester railway for the best locomotive, a trial of which was fixed for October, 1829, the Rocket, constructed by Stephenson & Booth, won most successfully. This, the first high-speed locomotive, weighed four and a half tons, averaged a speed of 14 miles an hour, with a gross load of 17 tons, its maximum speed being 29 miles.—London Spectator.

**THEY BEGIN MODESTLY.**  
Two Reforms Which the Women of France Expect to Compass.

The great women's right question is being rather skilfully handled in France, and oddly enough the chief tactician—Madame Schmahl—is an English lady, born and bred, with a suspiciously Teutonic married name. However, it appears that neither race nor nationality, nor even creed, offers any serious obstacle to feminine cooperation in the task of winning an equality with man. Madame Schmahl has succeeded in uniting with herself, as chief supporters of the "avant-garde," two such widely different personages as the Dowager Duchesse d'Uzes, an aristocrat and ultramontane, and Madame Sarah Monod, a member of the well-known Calvinist family from Geneva. Their programme is wisely limited to a couple of reforms, which they may reasonably hope to compass in one legislative session—namely, the right of women to act as witnesses to all legal documents, and the protection of the earnings of a wife from her husband's interference. When these two objects have been attained, the association will be dissolved, the promoters not being pledged to any more advanced aims.—St. James' Gazette.

**A Queer Lake in Georgia.**  
Thompson's lake, two miles north of Grand Ridge, is gradually drying up or running off, an event that occurs about every four or five years. The lake is half a mile long and about 200 yards wide, and has an average depth of 20 feet. An old settler declares that the lake once ran out so fast that its roar and whirr were heard at his house, more than a mile away, and after a few days the lake was refilled from a subterranean source almost as rapidly. When the lake is dry, the lake bed is studded with an abundance of fish. There is always good fishing in the lake and now that it is running off, hundreds of persons are visiting the place.—Atlanta Constitution.

**Rainy Days in Ireland.**

On the eastern coast of Ireland it rains on an average of 208 days in the year, in England about 150 days, at Kazan about 90 days and in Siberia only 60 days.

Some men are, in regard to ridiculous, like tin-roofed buildings in regard to hail; all that hits them bounds rattling off; not a stone goes through.—H. W. Beecher.

## Scribner's Magazine

A RED-LETTER YEAR FOR 1897

THE entire novelty of many of the plates for 1897 is noticeable. For instance, the series devoted to

"London as Seen by Charles Dana Gibson."

We are sorry to announce that Mr. Gibson has disappeared as a writer. He visited London last summer for Scribner's Magazine for the purpose of doing a series of sketches of the scenes and types which the huge metropolis presents.

Of like novelty in the first considerable Novel by Richard Harding Davis, "Soldiers of Fortune." The hero is one of the most vigorous and brilliant characters that has ever been created by C. D. Gibson.

The Conduct of Great Businesses." A beautifully illustrated series of articles of which the following are already completed:

"The Great Department Store," "The Hotel," "The Great Hotel," "The Working of the Bank," "A Day in the Life of a Banker."

Up-to-date Life in American Colleges." A series of articles touching upon the life of our older universities as represented by Judge Henry E. Howland writes on "Undergraduates at Yale," "Princeton" and "Harvard"; James A. Jackson on "Princeton" and Robert Grant and Edward S. Martin on "Harvard."

Japan and China Since the War" will be a most interesting group of articles which will be published.

The Unjust Sex." Under the title of "The Unquiet Sex," Mrs. Helen Watson Moody will write a series of articles on the subject of "College-Bred Women." "Woman's Club," "The Case of Maria" (a paper on domestic service).

W. D. Howells' "Story of a Play." In this Mr. Howells gives us the best novel of the season, and in his delightful vein of light comedy.

George W. Cable's "Twice-a-week" will be a series of four short stories by George Cable, the author of "The South," "Travelers on the Mississippi," "Their Ways and Meanways," the illustrations by American artists, and a bright beginning.

It is impossible in a small space to even mention the many attractive features for 1897. A full list of contents will be sent, upon request, which will be sent, postage paid, on request.

Scribner's Magaz no. \$300 a year.

25 cents a copy.

Charles Scribner's Sons,

153-157 Fifth Ave., New York.

THE

NEW YORK WORLD,

THREE-A-WEEK EDITION.

It stands first among "weekly" papers in size, frequency of publication and freshness, variety and reliability of contents. It is practically a daily at the lowest rates. We will warrant that all our subscribers will receive our paper at the lowest rates and pay in advance. Sample copies of Courier Journal sent free on application.

ALL SUBSCRIPTIONS UNDER THIS OFFER MUST BE SENT TO THE Kentuckian.

For Only \$2.50

We have made a special clubbing arrangement with the Twice-a-week Courier Journal, and will send that paper for the price named.

all our subscribers will receive our paper at the lowest rates and pay in advance. Sample copies of Courier Journal sent free on application.

ALL SUBSCRIPTIONS UNDER THIS OFFER MUST BE SENT TO THE Kentuckian.

## THE ENGLISH PREMIER.

His Power as the Maker and Unmaker of Cabinets.

The prime minister as a rule makes his cabinets. He is commissioned by the queen to form a cabinet because he is the man whom she can trust to possess the confidence of a majority of the house of commons. He forms his cabinet by asking certain members of the two houses to hold the great offices of state. He might do this in one day and without consulting anyone.

As a matter of fact, what usually happens is this: As soon as the commission to form a government has been received, the prime minister takes into his confidence the two or three men who will hold the chief offices, and they together talk over the other names. When a man is decided upon, he, as a rule, joins the concave, and helps to consult as to men and places, and so the cabinet gradually evolves itself. No doubt, as generally happens in this world, the prime minister's choice is never really free. Certain men must be in the cabinet, what he wants to do, and hence they may be said to be chosen by the prime minister, but to be ministers in their own right. In spite, however, of this, the fact that they are asked to serve by the prime minister makes them feel his superiority.

When the cabinet is made, the theory of the unwritten constitution is that the cabinet governs. In reality it seldom does anything of the kind. Each cabinet minister has very great power in his own department, but the cabinet as a cabinet can do little. Since, however, it knows everything, or almost everything, that is going on, it can exercise a great deal of indirect power. The previous knowledge that the majority of the cabinet would like or dislike a particular policy has a great influence, but still the cabinet does not prominently

choose, also, then, really rules? The prime minister. What gives the prime minister this power? In the first place, he summonses and sides over, and so largely controls, the cabinet meetings. Next, if a vacancy occurs, he fills it up, and so can promote men from the lower to the higher offices. Then he can and does confer with his colleagues in regard to the business of their departments, and so has a hold upon the whole machine of government. Sir Robert Peel saw every member of his cabinet separately every day. Again, if there is a difference between two other members of the government, the prime minister decides. Lastly, the prime minister can by resigning his office dissolve the whole ministry. These things, small and trivial, taken together make the prime minister's position what it is. He makes and can unmake a cabinet. He presides over it, and he has the right to advise in regard to every department, though this right is, of course, seldom exercised, and he has secured to himself beforehand the support of the rank and file of any cabinet if it comes to a struggle between him and a colleague, because the rank and file know that if the prime minister is beaten, he has it in his power to upset the whole machine of government. Hence the voices of those who want to keep in office are always found on the side of the prime minister's position what it is. He makes and can unmake a cabinet. He presides over it, and he has the right to advise in regard to every department, though this right is, of course, seldom exercised, and he has secured to himself beforehand the support of the rank and file of any cabinet if it comes to a struggle between him and a colleague, because the rank and file know that if the prime minister is beaten, he has it in his power to upset the whole machine of government. Hence the voices of those who want to keep in office are always found on the side of the prime minister's position what it is. He makes and can unmake a cabinet. A Sound Liver Makes a Wealthy Man.

Are you bilious, constipated or troubled with jaundice, sick headache, bad taste in mouth, foul breath, coated tongue, dyspepsia, indigestion, etc? If you have any of these symptoms, your liver is out of order, and your blood is slowly being poisoned, because your blood does not act properly. Herbine will cure any disorder of the liver, stomach or bowels. It has no equal as a liver medicine. Price 75 cents. Free trial bottle at R. C. Hardwick's drug store.

Jerry Burk, a negro boy, who tried to kill two white women, was shot to death in Louisiana.

Another Good Man Gone Wrong. He failed to use Foley's Kidney Medicine for his kidney complaint.—For sale by C. K. Wylie.

S. F. Fritz, of 677 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and so placed myself under treatment of several physicians, with no benefit. I was recommended to use Foley's Kidney and Tar, with little expectation of getting relief. I purchased a bottle. I had taken but few doses when I felt greatly improved. I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life." For sale by C. K. Wylie.

Several persons were injured in a street car accident at Pittsburgh.

The Pacific Railroad question may again be brought before Congress.

Not a few who read what Mr. Robert Rowles of Holland, W. Va., has written below, will remember their own experience under like circumstances: "Last winter I had a lagrige which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's cough medicine. This medicine so far relieved me that I soon began to attend to my work, and the second bottle effected a cure." For sale at 25 and 50 cents per bottle by R. C. Hardwick, druggist.

Morgan and Vanderbilt may get control of the Union Pacific roads.

Catarrh is a constitutional disease and requires a constitutional remedy like Hood's Sarsaparilla, which purifies the blood.

Frank Floyd accidentally killed himself in Lewis county, Tenn.

Woldert South American Blood Cure quickly dissipates all scrofulous stains in the system, cures piles, blisters and sores on the face, thoroughly cleanses the blood of boils, carbuncles, abscesses and eruptions, renders the skin clear, young and beautiful. If you would escape blood poison to fail with all its train of horrors, do not fail to use this masterly blood-purifier, which has performed such wonderful cures in all cases of shattered constitution and depravity of blood. Bad health signifies bad blood. Sold by R. C. Hardwick druggist, Hopkinsville, Ky.

The Rothschilds have bought the great Tommy gold mine.

Catarrh in the Head

Is a most dangerous disease. It may lead directly to consumption. Catarrh is caused by impure blood, and the only way to cure it is by purifying the blood. Hood's Sarsaparilla cures catarrh because it removes the cause of it by purifying the blood. Thousands testify that they have been cured by Hood's Sarsaparilla.

Hood's Pills are purely vegetable and do not purge, pain or gripe. All druggist 25c.

[Geo. S. Hammond, a rich Mexican mine owner is missing.

Pills! Pills! Itching Pills.

Suppose a Mortification, intense Itching and stinging, like the bite of a wasp, if allowed to continue turns form, which often become chronic. SWAYNE'S OINTMENT stops the Itching and bleeds the skin ulceration, and in most cases removes the mortification in a few days.

At a recent sitting of the Academy of Inscriptions in Paris, Mr. Bonelli gave an account of a remarkable Roman discovery at Susa, in Tunis. The French, who unlike the English in Egypt, have settled down in Tunis for good, have got a camp at that seaport which is "a mine of mosaics" where fresh discoveries are made every year. The other day a party of soldiers digging foundations unearthed a mosaic with three human figures in a perfect state of preservation, covered with only a few inches of soil. It is only three and one-half feet square, but the subject: "Virgil writing the Aeneid" will interest all. There is a front view of the poet loosely draped in a cloak of a white toga with a blue fringe, sitting with his feet in sandals and holding a pen. He holds on his knee a papyrus roll on which is written in cursive letters one of the verses of his poem. Mus. et causas moros: quo nomine quo. Quod donec regula Deum, etc.

With his right hand on his breast, the forefinger pointing upwards, his head erect in an inspired attitude, he listens to Clio and Melomene, who standing behind, dictate his cantos.—London News.

Chaperones for Hire.

## HERE AND THERE

Weather prophets promise another very cold wave this week.

—Dr. E. N. Fruitt, Dentist, office over City Bank, Hopkinsville, Ky.

Easter Sunday falls on April 18th this year.

—The Tandy place, corner Clay and 16th street, six room cottage, is for rent for \$187. Apply at this office.

Rev. Sam Jones will deliver two of his famous lectures at Sebree, Thursday, Feb. 11; one at 3:30 p.m., and the other at night.

—I want to sell or rent my two store rooms and lot who would exchange for a residence.

GEO. W. CENTER.

Mr. A. N. Watkins will have a sale of all his personal property at his home near Beverly to-day. The sale will commence promptly at 10 o'clock a.m.

—The late Dr. J. P. Thomas' double strength digester, known as Vitalia, for the cure of Typhoid, is for sale at Hardwick's and Co.

For the present we are informed that there will be no ice spell this winter. The season has been so mild and open that it was nearly Christmas before there was a good "hog killing" spell.

The gross earnings of the Louisville & Nashville Railroad for the first week in January were \$357,475, distributed among the following items: Expenses, \$6,682; Freight, \$165,000; miscellaneous, \$45,686. For the same period last year the gross earnings were \$354,505, being \$2,970 less than for the present year. The increase over the first week in January, 1895 was \$3,885. From July 1, 1896, to Jan. 7, 1897, the earnings were \$10,394,185, a falling off from the same period last year of \$14,038.

Among the many well-known set of Hopkinsville's wide-wake business men, Mr. Jas O. Cock, the Ninth Street Druggist, is one of the most promising. Starting a few years ago on a small scale, he has gradually built up a large and prosperous business, until he has now established himself among our substantial and promising business men. He carries a well selected stock, has one of the best pharmacists in the city in the person of Dr. H. B. Garner, and is popular with the public. He deserves success and we are glad to note his prosperity.

From the Paducah Visitor: "The social scene this week and the number of successes of the season makes the entertainment given by the Twelfth Night Dramatic club at the Y. M. C. A. hall Thursday evening, for the benefit of the association library fund. Not only was the performance worthy of patronage and laudable in object, but it gave the Paducah's young people an opportunity to show some really meritorious histrio talent. Those who took part in "The Loan of a Lover" were Misses Jeanette Campbell and Virginia Reed and Messrs. Rudolph Steinhausen, Matt Carney, Fred Franklin and James Campbell. In addition there were solo by Miss Jennie Winfree, of Hopkinsville, Miss Ida Hart and Mr. Mart Beatty; piano solos by Miss Bessie Campbell and Mr. Willie Gilbert, and a violin solo by Mr. Miller Bradshaw."

A most fashionable as well as an enjoyable entertainment was given by Mr. and Mrs. W. H. Jesup, at their home near Fairview Friday night, in honor of Miss Lizzie Cloud, of Kentucky. An elegant supper was served at which the entertainment was indulged in until late hour. The Fairview string band furnished music on the occasion. Following is a list of those present: Misses Ellen Cloud, Mary Cloud, Lizzie Cloud, Mary Logan, Kennedy; Lizzie Small, Mattie Smith, Anna Anderson, Trouton; Evelyn Fox, Nashville; Anna Wood, Susie Tandy, Hatton, Long, Batzie Blakemore, Gertie Bramham, Eloise Nelson, Hopkinsville; Messrs. Herbert and Jess Dickerson, Wallace Sullivan, Trenton; Bill Cloud, Elkhorn; Vaughn, Fairview; Gordon Nelson, Lake Nelson; Frank Pendleton, Dr. R. L. Wadsworth, Stanley Long, Huron Thomas; Tom Tandy, Hopkinsville; Mr. and Mrs. John Humphreys, Kosseid; Mr. and Mrs. Geo. Minimus, Trenton; Mr. and Mrs. Ben Moody, Mt. and Mr. Barker, Jessup, Fairview.
